

Advanced GeoIP Redirect

User Guide

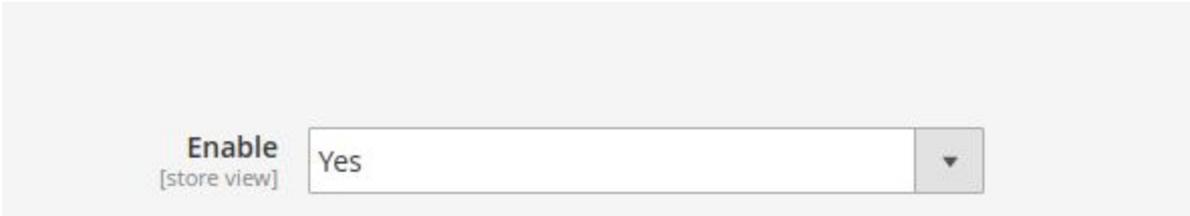

Contents

1. Enabling the extension
2. Setting up Redirection URL
3. Setting up Store Views
4. Setting up currencies

1.Enabling the module

In admin panel go to Stores → Configuration-->Sunarc-->IP Redirection-->Enable-->Yes

The image shows a configuration field for 'Enable' with a value of 'Yes'. The field is labeled 'Enable' with a sub-label '[store view]' below it. The value 'Yes' is displayed in the input box, and a dropdown arrow is visible on the right side of the box.

2.Setting up Redirection URLs

- In admin panel go to Stores → Configuration-->Sunarc-->IP Redirection-->Redirect URL Mapping Field
- We can choose various countries and the URLs to which we want the original URL to redirect.
- Multiple regions could be set.

Redirect URL Fields Mapping
[website]

Country	Redirect URL	Action
<input type="text" value="Iceland"/> <input type="text" value="India"/> <input type="text" value="Indonesia"/> <input type="text" value="Iran"/> <input type="text" value="Iraq"/>	<input type="text" value="http://www.gc"/>	
<input type="text" value="Afghanistan"/> <input type="text" value="Åland Islands"/> <input type="text" value="Albania"/> <input type="text" value="Algeria"/>	<input type="text" value="http://www.gc"/>	
<input type="button" value="Add"/>		

3.Setting up Store Views

- In admin panel go to Stores → Configuration-->Sunarc-->IP Redirection-->Redirect-To-URL-->Store View Fields Mapping.
- We can choose various countries and the stores to which we want to associate the countries.
- Multiple regions could be set.

Store View Fields Mapping [website]

Country	Storeview	Action
<input type="text" value="Iran"/> <input type="text" value="Iraq"/> <input type="text" value="Ireland"/> <input type="text" value="Isle of Man"/>	<input type="text" value="Japan"/>	
<input type="text" value="Honduras"/> <input type="text" value="Hong Kong SAR (C"/> <input type="text" value="Hungary"/> <input type="text" value="Iceland"/> <input type="text" value="India"/>	<input type="text" value="Defal"/>	

4. Setting up currencies

- In admin panel go to Stores → Configuration-->Sunarc-->IP Redirection-->Currency Mapping Field
- We can choose various countries and the currencies to which we want to associate the countries.
- Multiple regions could be set.

Currency Fields Mapping
[website]

Country	Currency	Action
<input type="text" value="Afghanistan"/> <input type="text" value="Åland Islands"/> <input type="text" value="Albania"/> <input type="text" value="Algeria"/>	Euro ▼	
<input type="text" value="Honduras"/> <input type="text" value="Hong Kong SAR C"/> <input type="text" value="Hungary"/> <input type="text" value="Iceland"/> <input type="text" value="India"/>	Euro ▼	
<input type="text" value="Heard & McDonal"/> <input type="text" value="Honduras"/> <input type="text" value="Hong Kong SAR C"/> <input type="text" value="Hungary"/>	US D ▼	
<input type="button" value="Add"/>
